

# Mike Bensi

## Intro

Mike helps organizations build strategies that transform their culture and employees, as well as the leaders who support them.

Fueled by his dedication to help develop stronger relationships between leaders and their employees, Mike trains leaders on the importance of culture, putting employees first and the role leaders play in accomplishing both.

Mike's favorite question for clients is, "How can I help you?" and he uses the answer to help leaders develop people-centered strategies they can implement right away.

Mike's diverse background, including past roles with small companies, global organizations and government, have given him a unique ability to personally understand the needs of clients and how best to meet them.

He holds a Bachelor's degree in psychology from the University of Illinois and an MBA from the Indiana University Kelley School of Business.

In addition to running his consulting company, Mike is an adjunct professor at Butler University.

Mike is the author of *The Success of Failure* and speaks around the country to groups about some of his favorite topics: employee engagement, human resources and leadership.

Please join me in welcoming Mike Bensi!
